# **Annual Report of the Lake Todd Village District** for Calendar Year 2013

The District commissioners held no meetings during the last year other than the budget hearing.

#### Dam Safety:

Voters appropriated \$4500 for fencing at the dam during the annual meeting. Some work on design was done. Installation is planned for 2014.

#### Financial Matters

The Treasurer reports that we took in about \$32,500 and spent about \$26,400. We ended the year with about \$24,000 which includes about \$12,000 for the January loan payment. The Treasurer has prepared a simplified financial statement which is appended. In addition, the Treasurer has prepared a chart showing the total expenditures for the dam improvements, which is appended at the end of this report.

#### Audit

An audit was performed on the 2013 books. The Auditor found that our financial records were in order and our procedures meet requirements. The audit summary letter is appended.

#### Water Quality Testing

The water was sampled two times last summer. No regional report was received this year because they are issued only every other year.

#### Sponsor A Highway

In cooperation with the State Department of Transportation, the District cleans up about two miles of Route 103 from Main Street, Bradford to Fowler Mill Road. We have a clean-up three times a year, usually the first Saturday in May, the last Saturday in August, and the first Saturday in November. Please come and join us in this satisfying public service.

Re: Summary of Annual Audit for Fiscal Year 2013

To Whom It May Concern:

An audit of the Lake Todd Village District General Ledger/Financial Records was conducted on, Friday, March 21, 2014, accordance with Form MS 60. The audit was performed by Peter Carl and was assisted by Margie Weiler, Treasurer of the Lake Todd Village District.

The audit was conducted by utilizing form MS 60. The audit consisted of analyzing and comparing the Lake Todd Village District General Ledger, bookkeeping and balance sheet to the various bank statements. Form MS 60 led the auditor through a litmus test of questions comparing random deposits and written checks shown in the bookkeeping to the actual bank statements verifying that the transactions were properly documented.

Form MS60 also required that information verifying the authority of parties who sign checks and maintain the bookkeeping. The form also requires the verification of periodic reconciliations.

The audit showed that all transactions that were compared in the bookkeeping to the bank statements were verified. It also showed general ledger year-end balances that matched the year-end bank statement.

The only suggestion for improvement would be similar to ones made in years past. Those suggestions would be to upgrade the bookkeeping process from an Excel spreadsheet to a more industry accepted accounting software such as a QuickBooks.
