

DAM COMMITTEE NOTICE

Wednesday, July 19, 2006

To all residents of Lake Todd:

We are dropping the level of the lake about one foot as of 7/19/2006 because something is stuck in the gate and won't allow us to close it fully. We hope to have the impediment removed by Friday and will close the gate at that time.

If you have any questions, please call John Warren at 603-938-2960.
Sorry for any inconvenience,

The Dam Committee

William Weiler & David Paine
